Index to Volume 5 ■ 1998

January/February, pages 1–138; March/April, pages 139–224; May/June, pages 225–320; July/August, pages 321–394; September/October, pages 395–488; November/December, pages 489–596.

SUBJECTS

A

ACT/DB, attribute centric querying of, 511
in attribute–value clinical trial data management, 139
Adaptable Clinical Trials DataBase, 139; 511
Ad-hoc querying, of EAV database, 511
Adverse drug event(s), identification of, 305
After-visit summary(ies), patients' desire for, 563
American College of Medical Informatics, 1997 AMIA Fall symposium debate, 293
fellows of, 1997, 217
international associates of, 219
Morris F. Collen Award, 214
President's Awards, 221
1998 Scientific Symposium (white paper), 395
(viewpoints), 401; 404; 412; 416
American National Standards Institute, policy of, 503
AMIA News, 133; 222; 319; 393; 484; 587
Anatomic knowledge representation, organizational principles for, 17
ARIANE, project overview of, 52
Arizona Telemedicine Program, 441
Association rule(s), in hospital infection control and public health surveillance, 373
Asthma, critiquing system for records of, 194
Attribute-centric querying, of EAV database, 511
Attribute–value clinical trial(s), ACT/DB data management for, 139
Audit(s), clinical, informatics in implementation of (viewpoint), 225
Auditing, of UMLS, semantic techniques in, 41
Authorship, responsibilities of (letter), 132
Auto-classification rule, 337

C

Chronic disease practice(s), informatics-based, 88
(editorial), 131
Chronic obstructive pulmonary disease, critiquing system for records of, 194
Classification(s), of anatomic entities, 17
Client–server system(s), ACT/DB in attribute–value clinical trial data management, 139
Clinical guideline(s), informatics in implementation of (viewpoint), 225
interchange format model for, 357
issues, obstacles, and future prospects, 227
Nursing Informatics 1997 Conference on (editorials), 315; 317
telecommunications for, 269
template to support utilization of, 237
Clinical information system(s), cultural changes in implementation of (editorial), 585
Clinical trial(s), ACT/DB data management for, 139
Coding system(s), for quality assurance, 337
Cognitive impairment, informed consent with, 245
Cognitive process(es), in GLIF guideline representation, 467
Cognitive science, in informatics, 493
Collaboration, in GLIF guideline representation, 467
worldwide, in future clinical and genomic research (viewpoint), 404
Collaborative research, in UMLS development, 1
(viewpoint), 12
Communication, by e-mail, 104
as factor in treatment delays, 112
Computer(s), attitudes toward use of, assessment instrument for, 164
human interactions with, 493
knowledge about, assessment instrument for, 164
in patient preference elicitation, 257
physicians' use of, measurement instrument for assessment of, 164
utilization of assessment instrument for, 164
Computer moniting, for adverse drug event identification, 305
Computer optimism, assessment instrument for, 164
Computer-based learning system(s), evaluation of, 493
Computer-based longitudinal record system(s), 88
(editorial), 131
Computer-based patient education, interactive, 347
Computer-based patient record(s), in longitudinal system, 88
(editorial), 131
Computer-based Patient Record Institute, classification of, nursing vocabularies and, 321
(viewpoint), 329
policy of, 503
Computer-based prescribing, and pharmacist work patterns, 546
(editorial), 585
Computer-based system(s), nursing vocabularies' implementation in, 321
(viewpoints), 329; 332
(editorial), 390
usability evaluations of, 493
Computer-generated reminder(s), in guideline implementation, 227
Computerized intervention(s), order-entry, to reduce vancomycin prescription, 554
Concept modeling, and terminology integration, 203
Concept representation(s), of clinical guidelines, 357
collaborative, for GLIF, 467
in UMLS, 421
UMLS as knowledge source for MAOUSSC system, 76
Concept Unique Identifier, 421
Conceptual query(ies), UMLS-based, 52
(editorial), 129
Conceptual standardization, in nursing vocabularies (viewpoint), 329
Conceptual-graphs theory, 52
Connectivity evaluation, on Internet, 528

Index to Volume 5 ■ 1998

Morris F. Collen Award, 214
President's Awards, 221
1998 Scientific Symposium (white paper), 395
(viewpoints), 401; 404; 412; 416
American National Standards Institute, policy of, 503
AMIA News, 133; 222; 319; 393; 484; 587
Anatomic knowledge representation, organizational principles for, 17
ARIANE, project overview of, 52
Arizona Telemedicine Program, 441
Association rule(s), in hospital infection control and public health surveillance, 373
Asthma, critiquing system for records of, 194
Attribute-centric querying, of EAV database, 511
Attribute–value clinical trial(s), ACT/DB data management for, 139
Audit(s), clinical, informatics in implementation of (viewpoint), 225
Auditing, of UMLS, semantic techniques in, 41
Authorship, responsibilities of (letter), 132
Auto-classification rule, 337

C

Chronic disease practice(s), informatics-based, 88
(editorial), 131
Chronic obstructive pulmonary disease, critiquing system for records of, 194
Classification(s), of anatomic entities, 17
Client–server system(s), ACT/DB in attribute–value clinical trial data management, 139
Clinical guideline(s), informatics in implementation of (viewpoint), 225
interchange format model for, 357
issues, obstacles, and future prospects, 227
Nursing Informatics 1997 Conference on (editorials), 315; 317
telecommunications for, 269
template to support utilization of, 237
Clinical information system(s), cultural changes in implementation of (editorial), 585
Clinical trial(s), ACT/DB data management for, 139
Coding system(s), for quality assurance, 337
Cognitive impairment, informed consent with, 245
Cognitive process(es), in GLIF guideline representation, 467
Cognitive science, in informatics, 493
Collaboration, in GLIF guideline representation, 467
worldwide, in future clinical and genomic research (viewpoint), 404
Collaborative research, in UMLS development, 1
(viewpoint), 12
Communication, by e-mail, 104
as factor in treatment delays, 112
Computer(s), attitudes toward use of, assessment instrument for, 164
human interactions with, 493
knowledge about, assessment instrument for, 164
in patient preference elicitation, 257
physicians' use of, measurement instrument for assessment of, 164
utilization of assessment instrument for, 164
Computer moniting, for adverse drug event identification, 305
Computer optimism, assessment instrument for, 164
Computer-based learning system(s), evaluation of, 493
Computer-based longitudinal record system(s), 88
(editorial), 131
Computer-based patient education, interactive, 347
Computer-based patient record(s), in longitudinal system, 88
(editorial), 131
Computer-based Patient Record Institute, classification of, nursing vocabularies and, 321
(viewpoint), 329
policy of, 503
Computer-based prescribing, and pharmacist work patterns, 546
(editorial), 585
Computer-based system(s), nursing vocabularies' implementation in, 321
(viewpoints), 329; 332
(editorial), 390
usability evaluations of, 493
Computer-generated reminder(s), in guideline implementation, 227
Computerized intervention(s), order-entry, to reduce vancomycin prescription, 554
Concept modeling, and terminology integration, 203
Concept representation(s), of clinical guidelines, 357
collaborative, for GLIF, 467
in UMLS, 421
UMLS as knowledge source for MAOUSSC system, 76
Concept Unique Identifier, 421
Conceptual query(ies), UMLS-based, 52
(editorial), 129
Conceptual standardization, in nursing vocabularies (viewpoint), 329
Conceptual-graphs theory, 52
Connectivity evaluation, on Internet, 528

Controlled vocabulary(ies), quality assurance system for, 337
Critical laboratory result(s), of inpatients, promptness of treatment after, 112
Critiquing system(s), integrated, simulation of, 194
Cultural aspect(s), of information system implementation (editorial), 585
Cultural belief(s), and nursing vocabularies (viewpoint), 329

D

Data, management of, by ACT/DB, 139
Data extraction, from entity–attribute–value database, 511
Data mining, in guideline implementation, 227
in hospital infection control, 373
in public health surveillance, 373
Data Mining Surveillance System, 373
Data model(s), LOINC, development of, 276
(erratum), 466
Data retrieval, granularity effects on, 571
Database(s), attribute-centric querying of, 511
management of, by ACT/DB, 139
Dataset(s), minimal, nursing, comparison of, 152
Decision making, patient preferences in, 257
Decision support system(s), informatics in implementation of (viewpoint), 225
integrated, critiquing, 194
patient preference integration into, 257
practice guideline issues, obstacles, and future prospects, 227
template to support utilization of, 237
Decision theory, in patient preference elucidation, 257
Definition(s), of anatomic entities, 17
Design, of distributed health care information systems, 432
of hospital information system, TAD in, 184
informatics as science of (viewpoint), 489
(editorial), 583
participatory, of information systems, 177
of terminology, and integration, 203
Design evaluation(s), of computer-based systems, 493
Development, of LOINC vocabulary, 276
(erratum), 466
Digital Anatomist, symbolic knowledge base of, 17
Disadvantaged consumer(s), telecommunications for, 269
Distributed health care information system(s), design of, 432
Drug(s), adverse event identification, 305
prescription of, electronic, 546

E

Education, of patients for health-care decision, 347
Education materials, on WWW, assessment of, 382
Electronic health record(s), personal, as future informatics goal (white paper), 395
Electronic mail, with patients, guidelines for, 104
Electronic medical record(s), critiquing system for, 194
data extraction from EAV database, 511
granularity effects on retrieval from, 571
in longitudinal system, 88
(editorial), 131
practice guidelines in, template to support utilization of, 237
Electronic patient record system(s), data extraction from EAV database, 511
Electronic publishing, of journal articles (letter), 132
Electronic submission program, 432
e-mail, with patients, guidelines for, 104
Encoding, collaborative, for GLIF, 467
for guideline interchanges, 357
Entity–attribute–value data, management of, 139
Entity–attribute–value database(s), data extraction from, 511
Evidence-based practice guideline(s), issues, obstacles, and future prospects, 227
template to support utilization of, 237

F

Food and Drug Administration, generic drug application process of, 432
Free text, granularity effects on speed and completeness of information retrieval, 571
MeSH term extraction from, 62
French language, UMLS and, 76
Funding, for nursing vocabularies (editorial), 391
Fuzzy logic, in guideline implementation, 227

G

Genomic research, future directions for, informatics in (viewpoint), 404
GRAIL representation language, in modeling nursing terminology, 120
Granularity, of narratives, effects on speed and completeness of information retrieval, 571
Guideline(s), interchange format model for, 357
for clinical practice, informatics in implementation of (viewpoint), 225
for clinical practice, issues, obstacles, and future prospects, 227
for clinical practice, template to support utilization of, 237
Nursing Informatics 1997 Conference on (editorials), 315; 317
Guideline representation(s), 357
GuideLine Interchange Format, 357
guideline representation with, cognitive processes in, 467

H

Health care delivery system(s), three-tiered (viewpoint), 401
Health care enterprise, consumer-centered (viewpoint), 412
Health care reform (viewpoints), 401; 404; 412; 416
HealthQuiz, 347
Home Health Care Classification, 321
Hospital(s), infection control in, association rules and data mining in, 373
Hospital information system(s), TAD in development of, 184
Human–computer interaction(s), 493

I

Implementation, of hospital information system, 184
of informatics, organization for (ACMI forum), 293
of nursing vocabularies in computer-based systems, 321
(viewpoint), 332
(editorial), 390
of telemedicine program, statewide, 441
Infection control, in hospitals, 373
Infrastructure(s), distributed, design of, 432
Informatics, basic research goals of (viewpoint), 416
in clinical guideline implementation (viewpoint), 225

Informatics (*continued*)
cocitation data of, 448
cognitive science in, 493
definition of science of (viewpoint), 489
(editorial), 583
as discipline, nature of, 493
engineering goals of (viewpoint), 416
in future clinical and genomic research (viewpoint), 404
future of (white paper), 395
(viewpoints), 401; 404; 412; 416
goals of, for new millennium (white paper), 395
(viewpoints), 401; 404; 412; 416
implementation of, organization for (ACMI forum), 293
journal literature of, 448
as local science of design (viewpoint), 489
(editorial), 583
longitudinal record system based on, 88
(editorial), 131
as medical discipline (viewpoint), 416
networked health care enterprise of the future (viewpoint), 412
in patient preference elucidation, 257
theory and practice of (viewpoint), 489
(editorial), 583
Informatics training, of nurses, 263
Information, for patients, guide for, 563
Information retrieval, granularity of narrative effects on speed and completeness of, 571
Information system(s), distributed, design of, 432
participatory design of, 177
TAD in development of, 184
for three-tiered health care delivery (viewpoint), 401
Informed consent, multimedia tool for, 245
Integrated critiquing system(s), simulation of, 194
Integration, semi-automated, of overlapping terminologies, 203
UMLS in, 421
of U.S. clinical terminologies, framework for, 503
Interactive health care education, 347
Interactive patient education, 347
Interface(s), ARIANE in modeling and implementation of, 52
InterMed Collaboratory, 493
International Classification for Nursing Practice, 321
questions about, answered, 335
International pathway(s), Internet, evaluation of, 528
International perspective(s), on clinical guidelines and patient preferences in nursing (editorial), 317
Internet, patient education on, 347
performance of, end-to-end, evaluation of, 528

J

Journal(s), informatics literature in, 448
Journal articles, electronic publication of (letter), 132

K

Knowledge, individual and collaborative, in GLIF guideline representation, 467
Knowledge base(s), anatomic, symbolic, 17
Knowledge source(s), UMLS as, for MAOUSSC system, 76

L

Laboratory test(s), critical results of, promptness of treatment of patients with, 112
LALR strategy, 203
Layman Education and Activation Form, 347
Legal guideline(s), for e-mail use, 104
Legal issue(s), in multimedia informed consent process, 245
Lexical method(s), in extracting MeSH terms, 62
Lexical technique(s), in semi-automated integration of overlapping terminologies, 203
Lexically assign, logically refine strategy, 203
Lindberg, Donald A. B., 214
Logic-based technique(s), in integration of overlapping terminologies, 203
Logical Observation Identifier Names and Codes, integration of with SNOMED, 203
vocabulary development for, 276
(erratum), 466
LOINC, integration of with SNOMED, 203
vocabulary development for, 276
(erratum), 466
Longitudinal record system(s), in chronic disease practice, 88
(editorial), 131

M

MAOUSSC system, UMLS as knowledge source for, 76
Mapping, from free text to MeSH terms, 62
of terminologies, UMLS in (viewpoint), 12
Measurement instrument(s), for physicians' computer use assessment, 164
Medical education, WWW materials for, assessment of, 382
Medical form(s), computerized, 347
Medicolegal guideline(s), for e-mail use, 104
Merging, of overlapping terminologies, 203
MeSH term(s), extraction methods for, lexical and statistical, 62
Metathesaurus, collaboration in development of, 1
(viewpoint), 12
semantic auditing of, 41
UMLS as knowledge source for MAOUSSC system, 76
Minimal dataset(s), nursing, comparison of, 152
Model(s), conceptual, UMLS, to query databases, 52
(editorial), 129
for guideline representation, 357
Model development, LOINC, 276
(erratum), 466
Modeling, of nursing terminology, using GRAIL representation language, 120
Monitor(s), for adverse drug event identification, 305
Multimedia, in informed consent process, 245

N

Narrative(s), granularity of, effects on speed and completeness of information retrieval, 571
National health care knowledge base, as future informatics goal (white paper), 395
National informatics agenda, for nurses, 263
National Library of Medicine, UMLS project of, 1
(viewpoint), 12
(editorial), 129
Network(s), asynchronous transfer mode, 441
in future health care infrastructure (viewpoint), 412
telemedicine, statewide, implementation of, 441
North American Nursing Diagnosis Association Taxonomy 1, 321
Nurse(s), informatics training of, 263
Nurse practitioner(s), template to support practice guidelines for, 237

Nursing informatics, national agenda for, 263
Nursing Informatics 1997 Conference (editorials), 315; 317
Nursing Interventions Classification, 321
Nursing minimal data set(s), comparison of, 152
Nursing Outcomes Classification, 321
Nursing terminology, GRAIL representation language in modeling, 120
Nursing vocabulary(ies), CPRI classification features of, 321
(viewpoint), 329
funding for (editorial), 391
implementation of, in computer-based systems (viewpoint), 332
(editorial), 390
review of, 321
(viewpoint), 329
(editorial), 390

O

Object-oriented method(s), in hospital information system development, 184
Ogden-Richards triangle, 421
Omaha System, 321
Online patient education, 347
Online practice guideline(s), issues, obstacles, and future prospects, 227
template to support utilization of, 237
Online questionnaire(s), to assess WWW medical education materials, 382
Ontology, anatomic, 17
Order entry(ies), computer guideline with, 554
Outcomes data, ACT/DB in management of, 139

P

Participatory design, of information systems, 177
Patient(s), ambulatory, information guide for, 563
information needs of, 563
informed consent information needs of, 245
Patient education, guide for, 563
online, 347
Patient Education and Activation System project, 347
Patient preference(s), health-related, integration of, 257
Nursing Informatics 1997 Conference on (editorials), 315; 317
Patient record(s), computer-based, integrated critiquing system for, 194
computer-based, data extraction from EAV database, 511
computer-based, in longitudinal system, 88
(editorial), 131
granularity effects on retrieval from, 571
in online patient education, 347
preference elicitation for, 257
sharing with patients, 563
Patient-encounter template(s), online, 237
Pattern identification, in data analysis, 373
Performance evaluation, Internet end-to-end, 528
Personal clinical health record(s), as future informatics goal (white paper), 395
Pharmacist(s), work patterns of, electronic prescribing and, 546
(editorial), 585
Physician(s), computer use, knowledge, and attitudes of, 164
Physician order entry(ies), computer guideline with, 554
Physician–patient communication, by e-mail, 104
guide for, 563
Pindex, in MeSH term extraction, 62
PostDoc, in MeSH term extraction, 62
Practice guideline(s), informatics in implementation of (viewpoint), 225
interchange format model for, 357
issues, obstacles, and future prospects, 227
Nursing Informatics 1997 Conference on (editorials), 315; 317
telecommunications for, 269
template to support utilization of, 237
for vancomycin use reduction, 554
Prescribing, electronic, and pharmacist work patterns, 546
(editorial), 585
Prescription guideline(s), for vancomycin use reduction, 554
Psychometric study(ies), of physicians' attitudes toward computer use, 164
Public health, surveillance in, association rules and data mining in, 373

Q

Quality assurance, Read code system for, 337
Query(ies), conceptual, UMLS-based, 52
(editorial), 129
Query Kernel, 511
Querying, attribute-centric, of EAV database, 511
Questionnaire(s), online, to assess WWW medical education materials, 382

R

Read Thesaurus, Read code quality assurance system for, 337
Reminder(s), computer-generated, in guideline implementation, 227
Remote-site health worker(s), telecommunications for, 269
Reporting procedure(s), for critical laboratory results, 112
Research, clinical, future directions for, informatics in (viewpoint), 404
collaboration in UMLS development, 1
(viewpoint), 12
genomic, future directions for, informatics in (viewpoint), 404
informatics, cognitive science in, 493
informatics, nature of (viewpoint), 489
(editorial), 583
Retrieval, granularity of narrative effects on speed and completeness of, 571
Rural areas, telemedicine in, statewide, 441
Rural health workers(s), telecommunications for, 269

S

Searching, granularity of narrative effects on results of, 571
Semantic integration, of databases, ARIANE in, 52
Semantic model(s), orthogonal, UMLS in connections of (viewpoint), 12
Semantic network(s), anatomic, 17
UMLS as knowledge source for MAOUSSC system, 76
Semantic technique(s), in auditing UMLS, 41
Semantics, of UMLS, interpretation of, 421
Simulation, of integrated critiquing system, 194
SNOMED, integration of with LOINC, 203
Software, architecture of, for FDA generic drug application process, 432
design of, participatory, 177
Social environment(s), in participatory design of information systems, 177
Social factor(s), in vocabulary standardization (viewpoint), 329
Social science(s), in informatics, 493
Standardization, of terminology (viewpoint), 329

Statistical method(s), in extracting MeSH terms, 62
Surveillance data, pattern identification in, 373
Symbolic knowledge base(s), of Digital Anatomist, 17
Systematized Nomenclature of Medicine, integration of with LOINC, 203

T

Tabular Application Development, of hospital information systems, 184
Teaching, online, assessment of, 382
Telecommunication(s), for rural and remote nursing in Australia, 269
Telehealth, 269
Telemedicine, 269
Arizona program, 441
Template(s), patient-encounter, online, 237
in querying EAV database, 511
Terminology(ies), integration of, framework for, 503
maturation of, framework for, 503
merging of, 203
overlapping, integration of by lexical technique, 203
UMLS in unifying, 1
(viewpoint), 12
(editorial), 129
understanding of (viewpoint), 329
Terminology mapping, UMLS in (viewpoint), 12
Terminology system(s), in United States, integration framework for, 503
Testing method(s), for Internet performance, 528
Things, UMLS representation of, 421
Thoughts, UMLS representation of, 421
Tiered system(s), for health care delivery (viewpoint), 401
Training, of nurses, in informatics, 263
Treatment delay(s), after critical laboratory results, 112

U

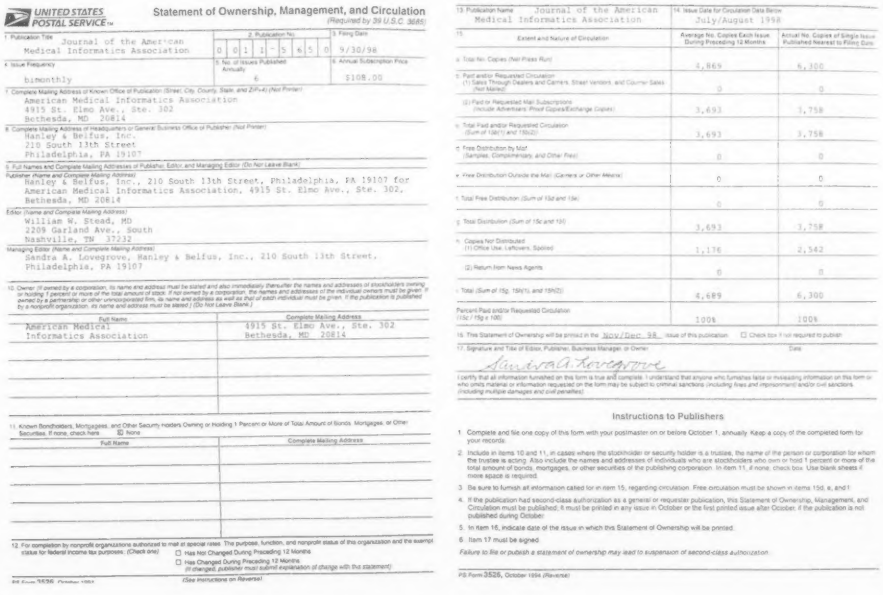
Unified Medical Language System, ARIANE project overview, 52
collaborative research in development of, 1
(viewpoint), 12
(editorial), 129
conceptual queries based on, 52
(editorial), 129
evaluation of (viewpoint), 12
as knowledge source for MAOUSSC system, 76
representation of thoughts, words, and things in, 421
semantic auditing of, 41
United States, terminology systems integration in, framework for, 503
Usability evaluation(s), of computer-based systems, 493
User interface(s), evaluation of, 493
User testing, of Internet end-to-end performance, 528
Utilization, of computers by physicians, measurement instrument to assess, 164

V

Vancomycin, computer guideline in reduction of use of, 554
Virtual health care databank, as future informatics goal (white paper), 395
Vocabulary(ies), controlled, Metathesaurus development for, 1
(viewpoint), 12
LOINC, development of, 276
(erratum), 466
nursing, CPRI classification features of, 321
(viewpoint), 329
nursing, GRAIL representation language in modeling, 120
quality assurance system for, 337
standardization of (viewpoint), 329

W

WAVE electronic health record, 237
Words, meanings of, and UMLS, 421
UMLS representation of, 421
Work pattern(s), of pharmacists, electronic prescribing and, 546
(editorial), 585
World Wide Web, medical education materials on, assessment of, 382



UNITED STATES POSTAL SERVICE™

Statement of Ownership, Management, and Circulation
(Required by 39 U.S.C. 3685)

1. Publication Title	2. Publication No.	3. Filing Date
Journal of the American Medical Informatics Association	0 0 1 1 - 5 6 5 0	9/30/98

4. Issue Frequency	5. No. of Issues Published Annually	6. Annual Subscription Price
bimonthly	6	$108.00

7. Complete Mailing Address of Known Office of Publication (Street, City, County, State, and ZIP+4) (Not Printer)
American Medical Informatics Association
4915 St. Elmo Ave., Ste. 302
Bethesda, MD 20814

8. Complete Mailing Address of Headquarters or General Business Office of Publisher (Not Printer)
Hanley & Belfus, Inc.
210 South 13th Street

Sandra A. Lovegrove

I certify that all information furnished on this form is true and complete. I understand that anyone who furnishes false or misleading information on this form or who omits material or information requested on the form may be subject to criminal sanctions (including fines and imprisonment) and/or civil sanctions (including multiple damages and civil penalties).

Instructions to Publishers

1. Complete and file one copy of this form with your postmaster on or before October 1, annually. Keep a copy of the completed form for your records.
2. Include in items 10 and 11, in cases where the stockholder or security holder is a trustee, the name of the person or corporation for whom the trustee is acting. Also include the names and addresses of individuals who are stockholders who own or hold 1 percent or more of the total amount of bonds, mortgages, or other securities of the publishing corporation. In item 11, if none, check box. Use blank sheets if more space is required.
3. Be sure to furnish all information called for in item 15, regarding circulation. Free circulation must be shown in items 15d, e, and f.
4. If the publication had second-class authorization as a general or requester publication, this Statement of Ownership, Management, and Circulation must be published; it must be printed in any issue in October or the first printed issue after October. If the publication is not published during October.
5. In item 16, indicate date of the issue in which this Statement of Ownership will be printed.
6. Item 17 must be signed.

Failure to file or publish a statement of ownership may lead to suspension of second-class authorization.
